MICHELL'S

1901 AUTUMN GUIDE

BULBS

PLANTS,
SEEDS &c

HENRY F. MICHELL 1018 MARKET ST. PHILADELPHIA

Michell's Superior High-Grade BULBS

are praised by all who have planted them.
Below we print a few unsolicited testimonials due to always dependable results.

READ
What the City Forester of Philadelphia says of Michell's Bulbs

several years past, for the purpose of examination—is indisputable evidence of the excellency and perfection of the display, both as a whole and also of the individual merits of the same, to which I add my sincere thanks for your continued and untiring efforts to aid me, by the superior quality of bulbs furnished, in thus making the annual display of our city such a great source of pleasure and gratification to our citizens, and visitors from distant cities, who witness the same.

Yours very truly,
JOHN C. LEWIS,
City Forester and Landscape Gardener.

P. S.—We have been awarded the contract to supply the Philadelphia Parks again with 65,000 bulbs for the display next spring (1902).

MR. HENRY F. MICHELL.

Dear Sir:—I write to tell you of the marvelous success of the bulbs purchased from your house last autumn. It was phenomenal, and while later than usual the beds were certainly most gorgeous, and people came miles to see them. I never saw such a blaze of color anywhere. The beds at the State House faded into insignificance, as mine had far richer and more variety of color, and the trusses were enormous in length and size of the flowers. We had some colors I never saw before, and some only once; rich purple, red and black and heliotrope. I knew you would be pleased to hear of their success, hence the liberty of writing, if excuse be needed.

Yours very truly,

June 10, 1901.

MRS. JOHN HEINS,
Crum-royde, Media, Pa.

Dear Sirs:—The Bulbous display in the City Parks and Squares being at its zenith, it becomes what I consider my duty, and I may add a very pleasant duty, to inform you that it is again a grand success in every way.

The exclamations of praise that are made by the numerous thousands of people—many of whom have become connoisseurs on the richness and quality of bulbs by their annual visits to our bulb beds every season for

How very beautiful are the bulb blooms in our city squares and parks, and how delightful it is of them to come out in the height of their glory for May day. How they throng the walks in the evenings and early mornings to feed the eyes with the rich hues and to breathe the perfume!

Independence Square is especially radiant this year. The great round

READ
What the Philadelphia Public Ledger Printed, May 1, 1901, of Michell's Bulbs

bed has a sunburst of "Von Slon" daffodils for its centre, with the national colors and many other things worked out in tulips and hyacinths. The triangular beds are masses of hyacinths in red, white and blue.

Over 60,000 new bulbs were set last fall. All were imported from Holland by Henry F. Michell, and grown to his order by one of the best of the Dutch bulb farmers. How carefully the bulbs were selected is shown in the uniformity of the blooms in size and color and in the patterns being worked out without a break.

Of the varieties of hyacinths used the red is "General Pelissier,"

the white "Alba superbissima," the deep blue "King of the Blues," bright blue "Grand Maitre," light blue "Charles Dickens." Of the tulips the scarlet is the "Belle Alliance," the white is "La Reine," the gold-tipped crimson the "Kaiser Kroon."

BRIGANTINE, N. J., May 27, 1901.

MR. HENRY F. MICHELL,
Philadelphia.

Dear Sir:—The Hyacinths and Tulips which I got of you last fall produced the finest display of flowers I ever saw.

Yours truly,

NORRIS SMITH.

HENRY F. MICHELL

A FEW HINTS ON THE TREATMENT OF BULBS

HYACINTHS.

DIRECTIONS FOR PLANTING IN THE OPEN GROUND.—This should be done in October and November, but they can be set out at any time, as long as the ground is open and the bulbs remain sound, but early planting always insures good root development and thorough establishment. The best compost for their culture is the following: One-third river sand, one-third well-rotted cow manure, and one-third good garden mould; or, where the soil is naturally light, well-rotted cow manure liberally intermixed is all-sufficient. Special care should be taken not to add any Bone Fertilizers, as they usually draw Vermin. The beds composed of the above compost should be well dug to a depth of fourteen inches, and raised from two to four inches above the level of the walks. The bulbs should be planted evenly about six inches deep (to the bottom of the bulbs) and from five to six inches apart; *if planted at uneven depths they will not bloom at the same time, but irregularly.* Care must be taken not to press the earth too firmly around and over the bulbs; some successful gardeners follow the plan of setting each bulb in a handful of clean sand, which insures drainage. After planting rake the bed smooth, and after the ground has frozen tolerably hard in early winter cover with dry litter, leaves or coarse manure. If this covering be applied before freezing weather, it renders the bulbs liable to the predations of field-mice.

FOR CULTURE IN POTS.—Prepare the above compost, adding, if possible a quantity of leaf mould. The most favorable time for planting is September, October and November. The size of the pot depends on the number of bulbs planted in a single one; three bulbs in a pot of say six inches in diameter have a rich massive effect; one or two bulbs in each may be planted in proportionately smaller pots—two bulbs in each are very effective. In potting, each bulb should remain one-half above the surface of the soil; when thus planted, water them well, to imbed the bulbs firmly in the soil, allowing them to remain in this condition one or two days; then bury the pots in the open ground to the depth of six inches for eight weeks, in which condition the preparatory root growth necessary to a vigorous development of their flower scapes is made. After this period take up the pots and remove them to a room not heated, but not so cold as to freeze. Being exposed to the light for the first time, they are, of course, very delicate. Care should therefore be exercised not to place them in the direct rays of the sun for two or three days. When about ready to flower bring them to the ordinary living-room, where the warmth will soon cause them to bloom. By so bringing them out, a few at a time, you can secure a beautiful succession of flowers all winter. They will need occasional watering until they begin to grow, when they should have an abundance of air in mild weather, and plenty of water.

FOR GROWING IN GLASSES.—Single varieties are the best for this purpose as they produce a much more satisfactory bloom than the double ones. Place the bulb in the glass, which should be filled with water so it touches the bottom of the bulb, place them in a close box in a cool place, or on a shelf in the dark part of the cellar, change the water every ten days or two weeks; keep them in the dark, cool place from six to eight weeks, then remove them to the light (not too strong). If then kept in a cool room they will produce very fine spikes and remain in bloom a long time.

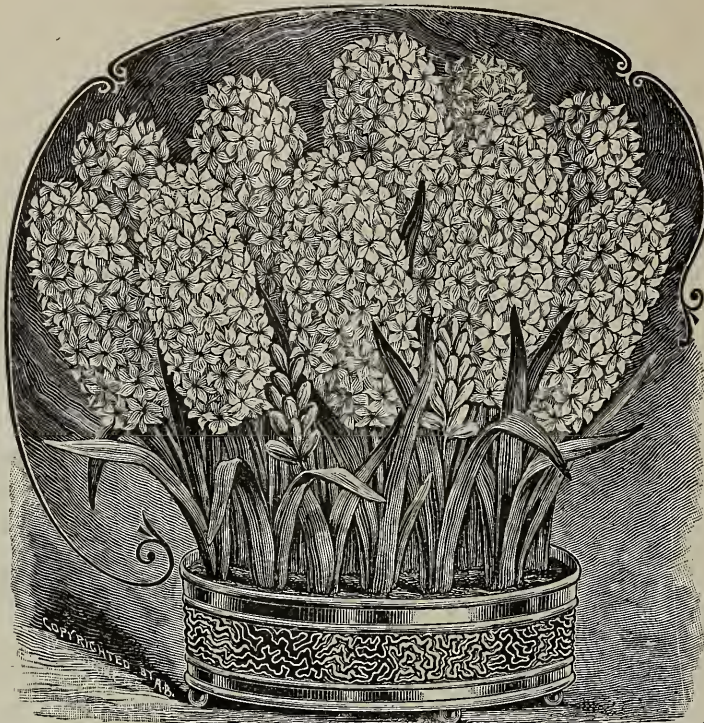

P. S.—A small piece of lump charcoal placed in the water will prevent it from getting foul.

—TULIPS—

These are most satisfactory for blooming indoors, as well as for bedding in the garden. Few bulbs can be had at so little cost that will produce such splendid results.

FOR BEDDING OUT.—The bed should be formed of a compost similar to that recommended for Hyacinths, the bulbs should be planted about four inches apart and about five inches deep (close planting makes a much finer effect, and prevents the flowers breaking off, when swaying in the wind); they should then be covered with a litter shortly before the severe freezing weather sets in, and left in this condition until Spring appears.

FOR PAN CULTURE.—Plant about four bulbs in a six inch pot or five bulbs in a six inch pan, water thoroughly and then remove to the open ground or in a cold frame covering with coal ashes, after they have rooted thoroughly they should be brought into a moderately cool room and gradually warmer by bringing in a fresh supply from the outside every ten days, and by careful treatment they can be had in bloom continually.

HYACINTHS

STRICTLY FIRST SIZE NAMED.

Will produce the largest and most perfect flower spikes. Adapted for forcing in water or in soil. Most of these varieties here offered have won first prizes at the Horticultural exhibitions.

HYACINTH GLASSES.

Belgian in all colors, 15 cts. each; per doz., \$1.50.

Austrian, heavier than Belgian, 20 cts. each; per doz, \$2.00.

Fancy. 20 cts. each; per doz, \$2.00.

Exhibition or Giant Flowering Hyacinths

These are the very finest and first selection of Hyacinths produced. Everyone should grow at least one dozen of these monster bulbs. We offer the finest varieties in this collection, such as will give elegant results.

Price 20c. each, per doz., \$2.00, \$15.00 per 100.

....SPECIAL NOTICE....

We offer the following prizes to be competed for at the March, 1902, meeting held by the Pennsylvania Horticultural Society, viz.:

	1st Prize.	2d Prize.
Hyacinths. Twelve best blooms in pots or pans.....	\$3.00	\$2.00
Lil. Harrisii. Best three plants.....	3.00	2.00
Narcissus Von Sion (double) one pan.....	1.00	
Cyclamen. Three best plants in bloom.....	2.00	1.00
Cineraria Hybrid. Best three plants... ..	2.00	1.00
Calceolaria Hybrid.	2.00	1.00

6 Bulbs of any one variety at dozen rates, 25 at 100 rates, 250 at 1000 rates.

Special Notice! We are informed by our growers in Holland and in the other bulb-growing districts that the outlook of the bulb crop is more favorable than for many seasons past. We can thus insure our customers of getting the finest stock obtainable.

MICHELL'S "PRACTICAL" BED OF HYACINTHS Six feet diameter, requires 110 bulbs planted 6 inches apart. 35 King of Blues, 35 Alba Superbissima (white), 40 Robert Steiger (red). **Price \$6.50**

HYACINTHS

For Bedding and
Pot Culture

CHEAP NAMED—Called 2nd Size, 1st Quality.

For customers not wishing to purchase the first size named bulbs, the following sorts have proven to be the very best. It pays to plant the named sorts, as they are far superior to the regular separate color quality—the bulbs are much larger and finer. Far superior to the regular separate color Hyacinths for bedding.

Pink04	.30	2.00	19.00
Blue04	.30	2.00	19.00

White Italian Roman Hyacinths

Somewhat later to bloom than the French Romans. They produce a fine, large, graceful spike. 4 cts. each; 35 cts. per doz.; \$2.25 per 100; \$20.00 per 1000.

NARCISSUS OR DAFFODILS

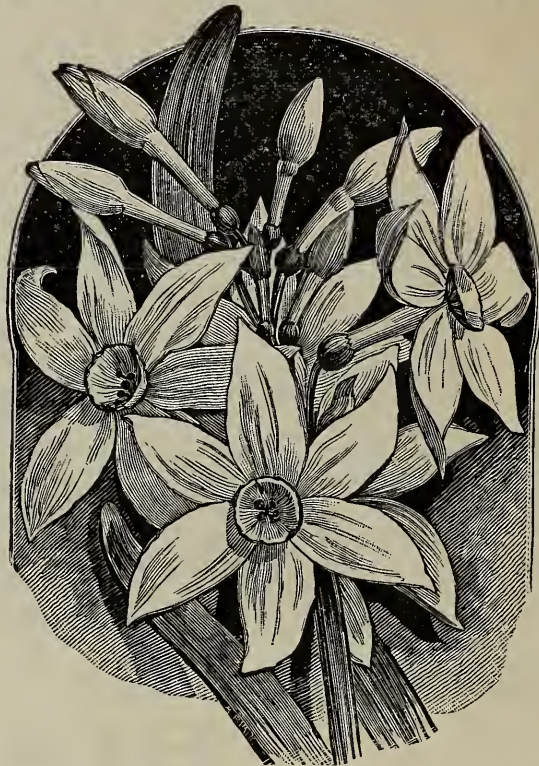

A beautiful class of early blooming flowers, becoming more popular each season, both for outdoor blooming and for use as cut flowers in the house. The double and single sorts are perfectly hardy, and need not be disturbed oftener than once in three or four years, and not then unless they have become too much crowded by offsets. Plant in the Fall in good garden soil about three or four inches deep, and four to six inches apart, or plant in pots in the house.

Von Sion, Popular Double Yellow Daffodil.

Double Narcissus.

	Per doz.	Per 100	Per 1000
Von Sion, Double Yellow, Paris Market. Extra early, especially adapted for Christmas forcing.....	\$0.40	\$2.50	\$20.00
Von Sion. Extra fine Holland-grown bulbs. The color of the flower is a bright yellow, devoid of the green tips often found in the cheaper stock.....	.30	2.00	17.00
Von Sion. Extra large, two-nosed bulbs. Will produce 175 blooms from 100 bulbs.....	.40	2.75	22.50

....NARCISSUS OR DAFFODILS

Single
Varieties

Ard Righ, or Irish King. Rich yellow. 8 cts. each; per doz. 75 cts.; per 100, \$5.25; per 1000, \$50.00.

Empress Bicolor. Perianth snow-white, trumpet rich yellow; valuable for cutting. Each, 12 cts.; per doz. \$1.25; per 100, \$7.50; per 1000, \$72.50.

Emperor. One of the finest daffodils in cultivation, flower of the richest yellow, trumpet of immense size; the petals of the perianth measure $3\frac{1}{2}$ inches across. Each, 12 cts.; per doz. \$1.25; \$9.00 per 100; \$80.00 per 1000.

Giant Princeps. Large golden yellow trumpet. Each, 4 cts.; per doz., 25 cts.; per 100, \$1.75; per 1000, \$15.00.

Golden Spur. One of the grandest daffodils, with extra large, bold, rich yellow flowers, foliage very broad and striking. It is of unusually robust habit and unsurpassed for gardens, pots or forcing. Each, 7 cts.; per doz., 75 cts.; per 100, \$5.00; per 1000, \$45.00.

Hoop Petticoat. (*Bulbocodium*). Of rich golden yellow color. Bears from six to twelve flowers to each bulb. Three to six bulbs may be placed in a six-inch pot. A dry and sheltered situation suits it best when planted in the open ground. Each, 7 cts.; per doz., 75 cts.; per 100, \$5.00; \$48.00 per 1000.

Horsfieldi Bicolor Narcissus.

Horsfieldi Bicolor. Very large, perianth white, trumpet golden yellow; the finest of all. Each, 10 cts.; per doz. 80 cts.; per 100, \$5.50.

Stella Incomparabilis. White star-shaped flower, with distinct yellow trumpet. 3 cts. each; per doz., 20 cts.; per 100, \$1.25.

Trumpet Major. The large yellow favorite. Each, 4 cts.; per doz., 25 cts.; per 100, \$1.75; per 1000, \$15.00.

Poeticus or Pheasant's Eye.
Hardy Narcissus.

Poeticus. (*Hardy Pheasant's Eye*). Fragrant white flowers with orange cups. Per doz., 15 cts.; per 100, 70 cts.; per 1000, \$5.00.

Poeticus Ornatus. Similar to Poeticus, but larger and four weeks earlier. Magnificent cut flowers; excellent for forcing. Per doz., 25 cts.; per 100, \$1.40; per 1000, \$12.00.

Poeticus Plenus. (*Alba Plena Odorata*). **Double White.** Very fragrant. 20 cts. per doz.; \$1.25 per 100; \$9.00 per 1000.

Golden Spur Narcissus or Daffodil.

JONQUILS

Jonquils, Sweet Scented.

Choice, hardy, very sweet-scented flowers, much in demand for cutting.

Single Yellow. Very sweet-scented. Each, 3 cts.; per doz., 15 cts.; 75 cts. per 100; per 1000, \$6.25.

Double Yellow. Each, 4 cts.; 40 cts., per doz.; per 100, \$3.00; per 1000, \$27.50.

Campernelle Phylogine Rugulosus. Large single yellow, excellent for forcing; an improvement on the old Campernelle. Each, 3 cts.; per doz., 20 cts.; \$1.15 per 100; per 1000, \$9.00.

Campernelle. Yellow. Each, 3 cts.; per doz., 15 cts.; \$1.00 per 100; per 1000 \$7.50.

6 Bulbs at dozen rates; 25 at 100 rates; 250 at 1000 rates.

TULIPS

—EARLY SINGLE—
Strictly True to Name and Color

TULIPS

NOTHING is more beautiful than a bed of tulips in the spring. They are the showiest flower in bloom at that time of the year. They should be planted in beds of any design, made of a good portion of loam and manure mixed well with the soil; the distance apart should be about four inches. The bulbs must be planted about four inches deep. A covering of long manure or straw for over winter is very beneficial for the bed. Tulips are also excellent for growing in the house; four or five bulbs to six or seven inch pots, or they can be forced in the greenhouse with good results.

Practical Bed of Tulips.

A very "Effective and Practical Bed" of Single Tulips.

Everybody should have one of these effective beds at this small cost. Eight feet in diameter or twenty-four feet in circumference, requires 250 bulbs, planted *five inches* apart. 125 Chrysolora, rich yellow, and 125 Belle Alliance. **PRICE FOR THE 250 BULBS, \$3.75.** Any other color may be used in their place. Ask us for special price and other suggestions on different design Tulip Beds.

P. S.—See also the special offer bed on cover of catalogue.

Special Notice. Customers having beds which they desire planted with bulbs and not knowing how many it requires will please mail us the size and the variety of bulbs wanted and we will gladly estimate the amount of bulbs to be used and the total cost thereof.

Double and
Late
Flowering

MICHELL'S SUPERFINE SINGLE TULIPS.

Late Flowering Single Show Tulips.

Gesneriana. The tallest, largest flowering and showiest of all late tulips for bedding out in masses. Height, two to three feet. Flowers of enormous size, on strong stems; keeps perfect several weeks, flowering in May. Color, rich crimson scarlet, with glittering blue-black centre. Per doz., 25c.; per 100, \$1.50; per 1000, \$11.50.

Gesneriana Rosea. Rich pink. Per doz., 25c.; per 100, \$1.50; per 1000, \$11.00.

Greigh. Called by some the "Queen of Tulips." Very handsome and distinct species; flowers very large, of brilliant orange scarlet with a yellow and black centre. Each, 15c.; per doz., \$1.50.

Bybloemen. Very showy, large flowers, white ground with stripes and markings of pink, scarlet and crimson. Per doz., 20c.; per 100, \$1.25; per 1000, \$10.00.

Bizarres. Beautiful, showy flowers, yellow ground, stripes, and markings of red, white and orange. Per doz., 20c.; per 100, \$1.00; per 1000, \$8.00.

PARROT TULIPS.

Choicest Mixed. Per doz., 20c.; per 100, \$1.00; per 1000, \$9.00.

Melpomene. Very large, rich crimson. 15c. each; \$1.50 per doz.; \$10.00 per 100.

Tigrinum, Single (Tiger Lily). 10c. each; \$1.00 per doz.; \$7.50 per 100.

Lilium Auratum (Golden Banded Japan.)

6 Bulbs of any one variety at dozen rates, 25 at 100 rates, 250 at 1000 rates.

ACONITE—Winter. (*Eranthis Hyemalis*.)

In early Spring the golden-yellow blossoms of Winter Aconite look charming and form a striking contrast to the pure white snowdrop, Spring snowflake and the beautiful blue scillas and chionodoxa. Especially valuable under trees and in moist places, where few other flowering plants thrive. Height, 3 to 8 inches. Each, 3 cts.; per doz., 20 cts.; per 100, \$1.00.

AMARYLLIS.*Amaryllis.*

Treatiæ Rosea. Bright rose. Each, 5 cts.; per doz., 40 cts.

Belladonna Major.

Bright pink. Each, 15 cts.; per doz., \$1.50.

Formosissima (*Jacobean Lily*). Crimson, blooming early in the Summer. Each, 5 cts.; per doz., 50 cts.

Hybrids of Vittata. Large bulbs. Each, 50 cts.; per doz., \$5.00.

Johnsoni. Very large flower, rich crimson-scarlet color, striped with white. Each, 30 cts.; per doz., \$3.00.

Treatiæ Alba. Pure white, blossoms the entire Summer. Each 5 cts.; per doz., 40 cts.; per 100, \$3.00.

Anometheca Cruenta. Scarlet Freesia. (See page 11.)

ANEMONES.

Suitable for pot or border culture; when planted in masses are most effective; succeed best in a light, rich, well-drained loam. Plant in October or November. Cover with leaves, straw or long manure on approach of Winter. For pot culture fill with any rich porous compost, with good drainage, planting four roots in a six inch pot; place in cold frame or any moderately cool situation, giving very little water until plants appear, then remove to greenhouse or sitting room window.

HOLY LAND

BLACK CALLA

Black Calla Lily.

(*Arum Sanctum*.)

A magnificent variety from the Holy Land; leaves large and wavy, of a rich green color. The flower is about fourteen inches long and four inches broad, of a brilliant dark purple color and green underneath. The plant makes a most stately appearance.

Selected Bulbs. Each, 15 cts.; per doz., \$1.50.

Spotted Foliage Calla Lily.

These are very ornamental and flower freely. The foliage is beautifully spotted and the flowers are pure white.

Dry Bulbs. Each, 10 cts.; per doz., \$1.00; \$5.00 per 100.

Cycas Revoluta Stems.

15 cts. per lb. P. S.—See back cover for illustration.

Chinese Sacred Lily

Ready in October.

The short time required to bring the bulbs into bloom (four to six weeks after planting) is one of the wonders of Nature. They do well in pots of earth, but are more novel and beautiful grown in shallow bowls of water, with enough fancy pebbles to keep them from toppling over when in bloom.

Each, 10 cts.; per doz., 90 cts.; original basket of 30 bulbs, \$2.00.

We have a choice lot of BOWLS and DISHES suitable for Chinese Lilies at reasonable prices. PEBBLES used for planting Chinese Lilies, 5 cents per quart.

PRICE=LIST OF "Standard" Flower Pots

MANUFACTURED EXPRESSLY FOR US

6 Supplied at Dozen Rates

50 Supplied at 100 Rates

500 Supplied at 1000 Rates

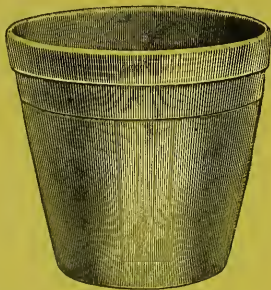

Sizes and shapes as adopted and recommended by the Society of American Florists, at their convention in New York City, August 23, 1888. These pots are full inside measurement, height and width, which makes them at least one size larger than by the old way of measuring. Destroy all previous lists of RIM POTS, as the sizes and prices are all changed.

All our Standard Pots from 7-inch and above are provided with our patent Excelsior bottom, which insures Perfect Drainage

ADVANTAGES OF STANDARD FLOWER POTS

- First—Uniform sizes throughout the country.
Second—Breakage is not one-half as great as in other pots, the deep rim protecting them from any ordinary hard usage.
Third—The foot keeps the pot up from the bench, so that it is impossible for hole to become clogged. The concave bottom and large hole insures perfect drainage.

Susiana. Very large. Each, 15 cts.; \$1.50 per doz.

We can especially recommend the named varieties of Spanish Iris for forcing. They are as choice as orchids.

10 at 1000 rates.

LILY OF THE VALLEY (Berlin).**READY IN NOVEMBER.**

It is now a most popular plant for forcing, which is easily done by planting the pips in pots, from six to twelve in each, watering freely, keeping in a cool cellar and starting from week to week to keep up a succession. They generally flower in three or four weeks after planting. They require a considerable amount of heat to force them. They are also very desirable for planting outdoors, as they are perfectly hardy and increase every year. *Our roots are specially selected at an advance of cost by a Berlin grower.* Per doz., 25 cts.; per original bunch of 25, 40 cts; per 100, \$1.50; per 1000, \$12.00.

HOLLAND GROWN LILY OF THE VALLEY.

Especially adapted for outside (garden) planting. Per bunch of 25, 35 cts.; per 100, \$1.25.

Large clumps, each 25 cts.; per doz., \$2.50; per 100, \$18.00

PINK LILY OF THE VALLEY.

The color is quite novel in this favorite flower. Each 5 cts.; per doz., 50 cts.; per 100, \$4.

LACHENALIA PENDULA.

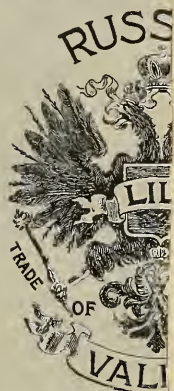

Very desirable for pot or hanging-basket culture. Per doz., \$2.00; per 100, \$12.50.

6 BULBS AT DOZEN RATES

**OXALIS (Bermuda Buttercup).**

An unrivalled winter-flowering pot plant, of the easiest culture, succeeding with everybody.

One of the finest winter-flowering plants for pot culture; it is such a strong, luxuriant grower that one bulb will be sufficient for a five-inch pot. Place in a dark, cool position for a few weeks to root thoroughly, and remove to a sunny situation in the window or conservatory and the great profusion of bloom produced in uninterrupted abundance for weeks will astonish and delight you. The flowers are of the purest bright buttercup yellow. The

**PÆONIES.**

Ready November 1st.

Extra fine large clumps, will bloom next Spring

**SCILLA SIBERICA (SQUILLS.)**

Hardy, pretty blue flowers, for the house or garden. Per doz., 15 cts.; 75 cts. per 100; \$6.00 per 1000.

SPARAXIS.

A beautiful class of bulbs, allied to the Ixias and requiring the same treatment, producing spikes of the most exquisite flowers. Mixed varieties. Per doz., 20 cts.; \$1.00 per 100.

New Spirea "Gladstone".

SPIREA (Astilbe). READY IN NOVEMBER.

A splendid plant for forcing in the greenhouse or the conservatory, where it produces beautiful sprays of silvery-white flowers during March and April.

"Gladstone"—New (See illustration). The handsomest of all Spireas; was awarded silver medals wherever exhibited. Each plant produces from 25 to 40 spikes of snow-white flowers. Each, 20 cts.; \$2.00 per doz.; \$14.00 per 100.

Japonica. Each, 10 cts.; \$1.00 per doz.; \$5.00 per 100.

Compacta Multiflora. Superior to Japonica, of more compact habit, flowers more freely and closer; foliage, beautiful dark green. Each, 10 cts., \$1.00 per doz.; \$6.00 per 100.

Astilboides Floribunda. An improvement on the common Astilboides; large, pure white plumes, with bright green foliage. Each, 10 cts.; \$1.00 per doz.; \$6.00 per 100.

Palmata. A most beautiful variety, bearing rich crimson flowers, excellent for forcing or outdoor culture. Each, 15 cts.; \$1.50 per doz.; \$10.00 per 100.

Washington (New). Each, 20 cts.; \$2.00 per doz.; \$10.00 per 100.

6 Bulbs at dozen rates; 25 at 100 rates; 250 at 1000 rates.

Choice Flower Seeds for Autumn Sowing

Collections. Imported. Containing six separate colors, 50 cts.

*HEUCHERA SANGUINEA.

Bright crimson flowers, foliage light green. Fine for cutting. Per pkt. 10 cts.

*HIBISCUS.

Crimson eye. Per pkt. 10 cts.

*LYCHNIS.

Haageana. Scarlet. Per pkt. 10 cts.

Haageana. Mixed. Per pkt. 10 cts.

*LOBELIA.

Cardinalis. Brilliant scarlet, 4 feet. Per pkt. 10 cts.

MIGNONETTE.

Allen's Defiance. (*Special*.) In original pkts. Per ½ pkt., 60 cts.; per pkt. \$1.00.

Sutton's Giant. In original pkts., per pkt. 25 cts.

Allen's New Defiance. Specially adapted for growing under glass. When grown under favorable conditions and with proper care, its spikes will not only be of remarkable size, from 12 to 15 inches long, but deliciously fragrant. Per pkt. 10 cts.; per ½ oz., 25 cts.

Bird's Mammoth. Very large spikes. Per pkt. 10 cts.; oz. 50 cts.

Machet. Improved. Per pkt. 10 cts.; per oz. 75 cts.

Collection of ten varieties, 50 cts.

P. S.—Mignonette when sown under glass during hot weather should be continually shaded until the seeds have thoroughly germinated; many failures are due to neglect of this simple remedy.

*MYOSOTIS (*Forget-Me-Not*).

Alpestris Victoria. Of bushy habit, bearing large bright-blue flowers. The plant attains a diameter of 8 to 10 inches, and when fully grown is globular in shape and perfectly covered with flowers. Per pkt. 10 cts.; ½ oz., 50 cts.

Alpestris Coerulea. (*Alpine*.) Bright blue. Per pkt. 10 cts.

Eliza Fanrobert. The most robust grower; specially adapted for outdoor growing; flowers very large, blue. Per pkt. 10 cts.; per ½ oz. 25 cts.

Dissitiflora. Compact habit; pinkish blue. Per pkt. 10 cts.

Palustris Semperflorens. The most desirable sort for cutting or greenhouse use. Per pkt. 10 cts.

"Nixenauge." The real Forget-Me-Not. The flowers are as large as those of Dissitiflora "Perfection" but of greater duration, beautiful sky blue and on long stems. The treatment is the same as Myosotis Alpestris. Per pkt. 10 cts.

Mixed, all sorts. Per pkt. 5 cts.

*POPPY (*Hardy*).

This class of Poppies has become one of the most popular flowers of late, so that no garden is complete without them. Seeds can be sown in August and September in the open ground and they will bloom early the following Summer.

Iceland Mixed. The colors range from the purest white and yellow to the deepest glowing orange scarlet, and have a delicious fragrance. The profusion of flowers is really astonishing. Mixed colors. Per pkt. 10 cts.; 3 pkts. for 25 cts.

Oriental Hybrids. Choice mixed. Per pkt. 10 cts.

Giant Orange. Per pkt. 10 cts.; 3 pkts. for 25 cts.

Giant Scarlet. Per pkt. 10 cts.; 3 pkts. for 25 cts.

Collection of eight varieties. Each color separate, 40 cts.

MICHELL'S GIANT PANSIES

Michell's Giant Exhibition Pansy, Mixed. A strain which we have secured from one of the leading pansy specialists in Germany to which we added the cream of the Paris strain, also the choicest to be had from Scotland. "IMPORTANT" SPECIAL NOTICE.

Trouble is at times experienced in getting **WHITE** varieties (white seeded) Sweet Pea seeds to germinate. We therefore advise sowing these shallow, barely covering them (which should be with sand), KEEPING THEM ALMOST DRY until well started, say 2 to 3 inches high. They can then be covered up more, and hilled up like the other varieties.

VEGETABLE SEEDS FOR FALL SOWING.

ASPARAGUS ROOTS.

FOR AUTUMN PLANTING—READY OCTOBER FIRST

Barr's Mammoth and Conover's Colossal. Extra strong two-year-old roots. Per 100, 75 cts.; per 500, \$3.00; per 1000, \$5.00.

GRASS SEEDS

We are Headquarters on this. Customers may rely upon getting only the very best obtainable.
A Few Unsolicited Testimonials.

MESSRS. H. F. MICHELL.

HOPEWELL, N. J., July 22, 1901.

GENTLEMEN:—I have had long experience in my business, and I will frankly state, your Lawn Grass Mixture has given me good results, "no Weeds, not one." Also your permanent Pasture Mixture gave me a fine stand and close sod. The field upon which it had been sown has been seeded for 3 years with no results until I obtained seed from you. I have many inquiries as to where I obtained it, and have no doubt you will obtain many new customers by it.

Respectfully,
D. F. KENNEDY, Manager for Prof. W. Edgerly.

MR. HENRY F. MICHELL.

TRENTON, JUNE 1, 1901.

DEAR SIR:—Your new Lawn Seed has already produced a splendid lawn. It's a grand mixture indeed.

Very truly yours,
HENRY T. CLINKABERRY,
Gardener to C. A. Roebling, Esq.

We make a specialty of supplying Country Clubs with the proper grass seed for Golf Links, Tennis Courts, Etc., Etc., also special makes of Lawn Mowers. Special Information as well as Special Prices will be cheerfully given. We can refer to a number of Clubs whom we supply.

HOW TO MAKE A LAWN

Some previous cultivation, or at least a thorough turning over should be given. A clayey loam is the best foundation for a good lawn. Let the surface be graded to the level wanted in all parts and well rolled—a light raking following this will prepare for the seed sowing, which should be done as early in the Spring as the ground can be worked, provided the ground has not already been prepared in the fall. The very best time, the ground being in order, is about April 1st. Three or four bushels per acre should be sown; the latter amount is best, for the young plants are but small and if thick, cover the ground better and make a smoother and more even turf. Mowing should be done at least once a week in favorable growing weather, and even in dry weather it should be cut twice a month. Do not allow the clippings to remain on the ground, except they are very short.

MICHELL'S OWN SPECIAL FORMULAS OF LAWN GRASS SEED MIXTURES

Mitchell's "None-Superior Evergreen" Lawn Grass Seed. This mixture is made of the finest varieties, presenting the appearance of the lawn like a bed of dark green velvet. We can safely say that there is no better mixture in the market. The seeds used are all fresh and re-cleaned, and enough white clover is added to make it strong and durable. Per qt. 25c.; 2 qts. for 40c.; 4 qts. 65c.; \$1.00 per peck; \$4.00 per bushel of 20 lbs. Five to ten bushel lots \$3.65 per bushel. **Please note that we give 20 pounds per bushel, which is equivalent to 1½ bushels.**

Fairmount or Central Park Lawn Mixture. A very fine mixture, which we can highly recommend. Qt. 20c.; pk. 75c.; bush. (15 lbs.) \$2.75; five to ten bush. lots, \$2.50 bush.

Phila. Country Club Golf Grounds Mixture. P. F. Foy's special formula. Strictly reliable. \$2.50 per bu (15 lbs.); 5 bu lots at \$2.25 per bu. Special price on application for larger quantities.

Mitchell's Lawn Tennis Mixture. Contains a special mixture of short growing varieties. Bush. of 20 lbs. \$4.00.

Mitchell's Putting Greens Mixture. This is a new mixture of our own; made up especially from such grasses as will grow very short and make a solid surface to withstand heavy wear. Bush. of 20 lbs. \$4.00 Ask for special price on quantity.

Mitchell's Shady Lawn Mixtures. Specially adapted for lawns on which there are trees, and where the usual grass seeds do not thrive. Peck \$1.15; \$4.00 bush. of 18 lbs.

MICHELL'S SPECIAL FORMULA PERMANENT PASTURE GRASS SEED

20 lbs. per bushel, \$3.00 per bu.; 5 bu. lots \$2.60 per bu.; 10 bu. lots and over at \$2.50 per bu.

This special mixture is made by us after careful study of the very best permanent, hardy varieties of grasses, such as will produce a quick growth and of a permanent nature. All the different varieties contained in this special formula are especially adapted either for cutting for hay or pasturing horses and cattle, and can be relied upon to give the very best results. We recommend this mixture either for making entirely new pasture fields, or for replenishing partly worn out pastures.

2½ bushels per acre is the proper quantity to sow on new fields, whereas 1 to 1½ bushels per acre is sufficient for re-sowing and replenishing old fields.

SEPARATE VARIETIES OF GRASS SEED

Awnless Brome Grass. (*Bromus inermis*). A valuable grass for light, dry soils; will stand long droughts and produce heavy growth when other grasses frequently fail, sow 40 lbs. to the acre. Lb. 20c.; \$2.50 per bu. of 14 lbs.; per 100 lbs. \$15.00.

Hard Fescue. Thrives well in dry situations where many grasses cannot exist. Sow 30 lbs. to the acre. Lb. 20c.; \$15.00 per 100 lbs.; \$3.50 per bu.

Blue Grass. (*Kentucky*). Extra fancy cleaned. One of the most valuable sorts for lawn purposes, and as a pasture grass is indispensable. This grade is the best for sowing lawns. Qt. 15c.; bu. (14 lbs.) \$1.75; original sacks, containing 8 bu. \$1.60 per bu.

Creeping Bent Grass. (*Agrostis stolonifera*). Excellent for lawns, succeeds well in all conditions, makes a low velvety growth. Per lb. 25c.; bu. (20 lbs.) \$4.50; 100 lbs. \$20.00.

Canadian Blue Grass. Adapted especially to high, dry situations. Per lb. 15c.; bu. (14 lbs.) \$1.50; \$10.00 per 100 lbs.

Crested Dogtail. An excellent grass for hard, dry soils, valuable for pastures or lawns, 25 lbs. to acre. Lb. 35c.; 100 lbs. \$25.00.

English Rye Grass. (*Perennial Rye*). Qt. 15c.; bu. (24 lbs.) \$2.00; five bu. lots, \$1.80 per bu.; \$7.50 per 100 lbs.

Fancy Herd or Red Top. Extra re-cleaned seed, free from chaff (32 lbs. per bu.) 20c. per lb.; \$14.50 per 100 lbs.

Herd or Red Top Grass. Qt. 15c.; bu. (10 lbs.) \$1.00; sack of 50 lbs. \$4.00. Special price quoted on larger quantities.

Natural Green Grass. Qt. 20c.; bu. (14 lbs.) \$2.00.

Orchard Grass. For pasture, sowing under orchards or shady places. Lb. 20c.; bu. (14 lbs.) \$2.10; \$14.00 per 100 lbs.

Rhode Island Bent Grass. (*Agrostis Canina*). Resembles Herds Grass, forming a fine turf even on thin soils. Doing especially well in salt atmospheres. The only Lawn Grass used at Newport. Sow 40 lbs. to the acre. (15 lbs. per bu.) \$2.50 per bu.; \$15.00 per 100 lbs.; per lb. 25c.

Sheep's Fescue. (*Festuca Ovina*). Sow 40 lbs. to the acre. Lb. 20c.; \$16.50 per 100 lbs.

Sweet Vernal. (*Perennial*). Very fragrant. Lb. 50c.; five lbs. \$2.15.

Wood Meadow Grass. (*Poa Nemoralis*). Particularly adapted for pleasure grounds and lawns; will grow under trees where few other grasses can exist. Lb. 30c.; \$27.50 per 100 lbs.

FARM AND CLOVER SEEDS

CLOVER SEEDS

Alsike or Swedish. Valuable for pasturage or ensilage. Lb. 18c.; bu. \$9.60.
Alfalfa or Lucerne. Sow early in Spring to secure a good stand before Winter. Lb. 20c.; bu. (60 lbs.) \$7.20; \$11.75 per 100 lbs.

Bokhara Clover. Excellent for bee food. Lb. 25c.; 10 lbs. \$2.25.

Red Clover. The seed we offer is re-cleaned and free from weeds. Lb. 14c.; bu. (60 lbs.) about \$7.50. Subject to market changes

Scarlet or Crimson Clover. Lb. 10c.; \$4.35 per bu.; per 100 lbs. \$7.00.

White Dutch Clover. The best variety for lawns; remains green throughout the season; highest grade of seed only. Lb. 25c.; 10 lbs. \$2.25; per bu. \$11.40.

RYE

White Winter. Per bu. about \$1.00.

P. S.—We especially invite large buyers of Grass, Clover and Millet Seeds to ask us to quote prices and allow us to submit our samples before purchasing elsewhere.

MILLET (Prices Fluctuate)

Egyptian or East India Pearl Millet. Grows from eight to ten feet high. Sow three to five pounds per acre. Lb. 25c.; 10 lbs. \$2.00.

German or Golden Millet. Qt. 15c.; bu. (48 lbs.) about \$1.35.

Hungarian Millet. Qt. 15c.; bu. (48 lbs.) about \$1.10.

Timothy. Seed extra prime. Per bu. about \$3.00.

WHEAT

Jones Winter Fife. Per bu. about \$1.25.

Fultz. Per bu. about \$1.25.

Fullzo-Mediterranean. Per bu. about \$2.00.

RUBBER HOSE.

Best quality. 70c. to \$1.25.

HOT BED MATS

PALMER'S BURLAP-FROST PROOF

Made expressly for Winter covering of hot beds, cold frames, plants and seeds of all kinds.

INDESTRUCTIBLE, CHEAP AND WARM

Will not harbor mice or vermin. Easy handling. Have now been in practical use five years. Costing less than half as much as old-fashioned straw mats and entirely taking their place.

Size 76 x 76 inches fully covering two regular size hot bed sash, \$1.15 each, \$12.75 per doz.

Size 40 x 76 inches, fully covering one hot bed sash, 85 cts. each, \$9.25 per doz.

Duck and Burlap, 40 x 76 inches, \$1.25 each, \$13.50 per doz.

" " 76 x 76 " 1.65 " 16.50 "

Duck and Burlap, 76 inches wide, at 30 cts. per running foot.

Plain Burlap, at 20 cts. per running foot.

Straw Mats. For covering hot beds and frames. 3 x 6 feet, 85 cts. each, \$9.00 per doz.. 6 x 6 feet, \$1.25 each, \$14.00 per doz.

Rattan Hot Bed Mats. These are the most durable yet introduced and will probably supersede all others when their merits are known. Size 72 x 74 inches, covering two frames. \$2.00 each, \$21.00 per doz.

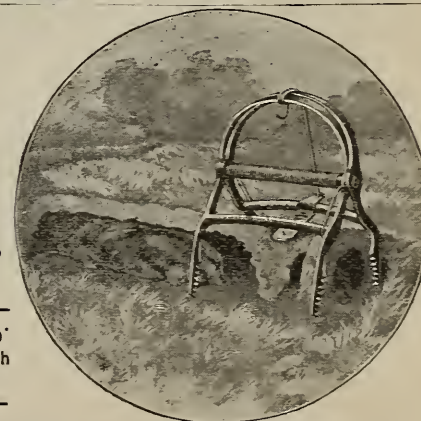

MOLE TRAPS

THE NEW

"Out o' Sight"

MOLE TRAP

Cut shows position of "Out o' Sight" Mole Trap when set with mole approaching.

Considered to be one of the best and cheapest Mole Traps on the market. (Especially valuable for hot-beds and frames on account of its convenient size. Price, \$1.00 each; \$5.00 per 1/2 doz.; \$9.00 per doz.)

Olmsted's, \$1.50 each.
Hale's Mole Traps \$2.00 each.
Enterprise, \$1.70 each.
Perfection, \$2.00 each.

Reddick's, \$1.00 each.
New Model Mole Traps, \$1.50 each.
English Mole Traps, 35c. each

CLAD'S HOT WATER STOVE

For heating conservatories and small greenhouses. This is the best and most reliable Hot Water Stove on the market.

Descriptive circular sent on application.

No. 0, \$17.00.

No. 1, \$22.50.

No. 2, \$30.00.

The New "Superior" Iron Plant Stand showing a Palm in TILTING Position.

THE NEW PATENT "SUPERIOR" ENAMELED IRON PLANT STANDS

We are the Manufacturers' Sole Agent for these.

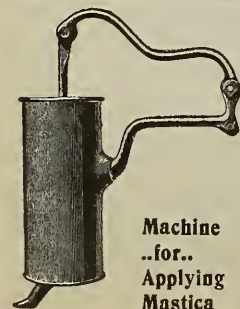

This is the very best and only stand that fills a *long felt want*. You can tilt and set your plants at any angle desired to produce the proper decorative effect. (For Azaleas, Palms, and similar style plants it is especially invaluable). They are neat, durable, very strong, and suitable for either parlor, store, hall, conservatory or greenhouse. They are also desirable for elevating plants above others to save space in the greenhouse.

Machine
..for..
Applying
Mastica

MASTICA

FOR GLAZING GREENHOUSES
New or Old

Elastic, adhesive, easy to apply. Used now extensively and highly recommended by all the up-to-date gardeners and florists. Immense quantities were used last season.

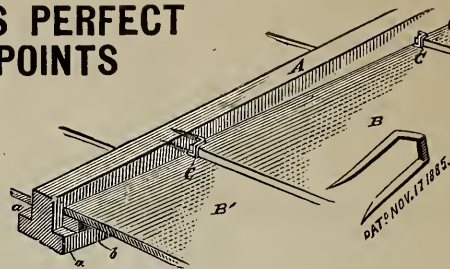

Per gallon \$1.25; half gallon 70 cts.;
5 gallons \$5.75.

Machines for applying Mastica, \$1.25 each

VAN REYPER'S PERFECT GLAZING POINTS

These are made of steel wire and galvanized, having double points and lap over the glass in such a manner as to positively keep it from sliding.

They may be used on either side of the sash bar, thus preventing the annoyance of rights and lefts. Per box of 1000, 60 cts.; 5000 lots at 55 cts. per 1000. Pincers for driving, 50 cts.

Siebert's Popular Glazing Points, 40 cts. per lb.

PUTTY BULBS

Used for Applying

Putty
when Glazing.

90 CTS. EACH.

HOT BED SASH

3 feet 2 inches x 6 feet 2 inches, unglazed, \$1.15 each.

Special price will be quoted on quantities, also on glazed and painted complete sash.

UNIVERSAL GLAZIERS' DIAMOND

Hold the Diamond against the ruler. Place it perpendicular on the glass so that it rests on the Diamond and Guide Wheel—the Wheel towards you. Press on it gradually, until it makes a singing sound, not a harsh noise.

Draw over the glass slowly and uniformly, never cut twice in the same place. Price \$2.50.

STEEL WHEEL GLASS CUTTERS. (Very Good.)

15 cents each; 4 for 50 cents.

PLANT BED CLOTH

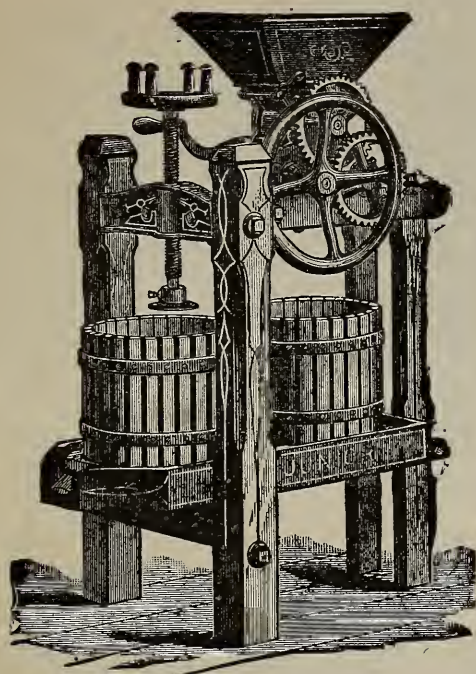

A Substitute for Glass Sash on Hot-beds and Cold Frames

Light Grade. Mostly used for shading greenhouses. Per yard 4 cts.; by the piece of 68 yards, 3½ cts. yard.

Medium Grade. The best for general purposes. Yard, 8 cts.; by the piece of 50 yards, 7 cts. yard.

Heavy Grade. Water-proof and advised for states north of Pennsylvania. Per yard, 10½ cts.; by the piece of 40 yards, 10 cts. per yard.

DODGE'S EVERLASTING GLASS LABELS. Will never wear out. Sample mailed free on application. 50 cts. per doz.; \$3.50 per 100.

STRICTLY HIGH GRADE FERTILIZERS.

Ashes. (Canada Unleached Hard Wood). These contain all of the fertilizing elements except nitrogen. They drive away insects, and are indispensable for all crops requiring potash. Apply about 1000 lbs. to the acre. Per 100 lbs. \$1.50; bbl. of 250 lbs. \$2.50; ton of 2000 lbs. \$18.00.

THE COST OF WOOD ASHES can be reduced \$3.00 per ton by customers giving us their order two weeks ahead, to enable us to ship it direct from Canada to the customer. Special rate on application.

Bone Meal. Michell's Strictly Pure and Fresh. In fertilization nothing takes precedence in importance over animal bones, because they furnish the soil with the essential requisite of nitrogen as well as phosphoric acid. The most substantial fertilizer for lawns and plants. It keeps on feeding the soil for fully ten months. 3 lb. box 15c.; 5 lb. bag 25c.; 10 lbs. 40c.; 25 lbs. 75c.; 100 lbs. \$2.00; sack of 200 lbs. \$3.50; ton \$30.00.

Baugh's Celebrated \$25.00 Phosphate. \$3.00 per 200 lb. sack; \$25.00 per ton.

Bone. Pure Ground. Coarser than bone meal; apply 400 lbs. to the acre. 25 lbs. 75c.; 100 lbs. \$2.00; sack of 200 lbs. \$3.50; ton \$30.00.

Bone Flour. Pure. Ground perfectly fine; excellent for pot plants or beds where an immediate effect is wanted. 5 lbs. 25c.; 25 lbs. \$1.25; 100 lbs. \$2.50; bag or bbl. of 200 lbs. \$4.50; ton \$40.00.

Blood (Dried). Very rich in nitrogen. \$3.00 per 100 lbs.; \$5.00 per 200 lbs.; \$42.00 per ton.

Bowker's CHEMICAL FERTILIZERS. For general forcing (indoors or out), apply at the rate of about one pound to each hot-bed sash, or six pounds to every one hundred square feet of bed, thoroughly worked into the soil to the depth of two or three inches.

For forcing lettuce, cabbage, tomato plants, etc., apply from four to six pounds per one hundred square feet, thoroughly mixed with the soil. Half the quantity may be applied a month later.

For carnations, violets and similar plants use at the rate of four to six pounds for every one hundred square feet, or two to three pounds may be applied at one dressing, and then a month later apply two or three pounds more. 10 lbs. 50c.; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00.

Bowker's Plant Food. Made especially for plants grown in conservatory, house or garden. Clean, free from offensive odor. Full directions with each package. Package 25c.; by mail 40c.

Clay's Fertilizer. Imported manure especially recommended for flowers or vegetables, to bring the highest perfection. Should be used in potting soil, and spread on staging of greenhouses planted with flowering plants. Per bag of 25 lbs. \$2.00; 50 lbs. \$3.50; 100 lbs. \$6.50.

Cotton Seed Meal. \$2.00 per 100 lb. sack; \$25.00 per ton. Special price will be quoted on larger lots.

Guano. Pure Peruvian. 1½ lb. box 15c.; 3½ lb. box 25c.; 10 lbs. 50c.; 100 lbs. \$2.50; per ton \$40.00.

Guano. Potato, corn and truck. Sharpless and Carpenter's Brand. Guaranteed analysis: Actual potash, 6 to 8 per cent.; ammonia, 1½ to 2½ per cent.; available phos. acid, 6 to 8 per cent. Price \$3.50 per sack of 200 lbs.; \$30.00 per ton.

Guano. Native or Poudrette. Very rich in quality and very low in price. 5 lbs. 20c.; 25 lbs. 60c.; \$1.50 per 100 lbs.; \$15.00 per ton. Special price on larger quantities.

Horn Shavings. A very valuable and rich fertilizer, especially for roses, chrysanthemums, etc. 10c. per lb.; 25 lbs. \$1.75; \$5.00 per 100 lbs.

Thomson's Flower and Vegetable Manure. This is one of the very best fertilizers introduced from England, and can be highly recommended to any one wishing an immediate effect in forcing. Highest testimonials from those who have tested its merits. Put up in original bags. 28 lbs. (¼ cwt.), \$1.75; 56 lbs. (½ cwt.), \$3.25; \$6.00 per 1 cwt.

Imperial Liquid Plant Food. One of the best and most reliable plant fertilizers now on the market. Highest testimonials received from all who are using it now. Per 10 gallon cask \$4.85; \$8.10 per 20 gallon cask. F. O. B. factory.

"Jadoo" Liquid. Is the cheapest fertilizer sold. Both meat and drink to plants. Revives drooping plants, strengthens the weak and nourishes the strong; above all, it increases the size, causes greater profusion of bloom, and heightens the colors of all flowers and plants. Can be used on plants that are grown in earth or "Jadoo" Fibre. 25c. per pint bottle; \$1.50 per 2 gallon jug.

Kainit. One of the most useful fertilizers. Apply at the rate of 1000 lbs. per acre. Should be spread during winter. 100 lbs. \$1.25; 200 lbs. \$2.00; per ton \$15.00.

Land Plaster. For mixing with Paris Green, also for top dressing to sweeten the soil. 25 lbs. 50c.; 100 lbs. \$1.00; bbl. \$1.50; ton \$9.50.

Lawn Dressing. (Odorless). A scientific food for lawns. Guaranteed. 10 lbs. 40c.; \$1.00 per 25 lb. bag; 50 lb. bag \$1.75; 100 lb. bag \$3.00.

Manure. We can supply at short notice, strictly first-class, clean, short or long manure. Our large sales these past two years prove that we send out a choice article. In car-load lots only at \$1.25 per ton. Special price will be quoted on larger quantities.

Muriate of Potash. 50 lbs. \$2.25; 100 lbs. \$3.25; \$48.00 per ton.

Nitrate OF SODA. For all crops. Contains the largest percentage of nitrogen; equal to 19 per cent. of ammonia. It is very quick in action, and hastens maturity of crops fully two weeks. *Should not be applied until the plants are above the ground*, when 100 to 150 lbs. per acre should be sown with other fertilizers, or mixed with phosphates. Shipped in double bags. 50 lbs. \$2.00; 100 lbs. \$3.50; 200 lbs. \$6.00; per ton \$48.00.

Poudrette. 5 lbs. 20c.; 35c. per 10 lbs.; 25 lbs. 60c.; \$1.00 per 50 lbs.; \$1.50 per 100 lbs.; per 200 lb. sack \$2.50; \$10.00 per 1000 lbs; \$15.00 per full ton.

Phosphate. Baugh's Celebrated \$25.00 Brand. \$3.00 per 200 lb. sack; \$25.00 per ton.

Phosphate. Super High Grade. Analysis: Ammonia, 4 to 6 per cent.; bone phosphate, 24 per cent.; available phos. acid, 6 to 8 per cent.; sulph. potash, 1 to 2 per cent. It stands without a rival as the largest crop producer at the smallest outlay. It is a complete manure. Harrow or drill in, using 400 lbs. per acre. 25 lbs. 90c.; 100 lbs. \$2.00; 200 lbs. \$3.25; per ton \$28.00.

Phosphate, No. 1 Brand. Very good. 200 lb. sack \$2.75; ton \$20.00.

Soot Imported Scotch. Per lb. 10c.; per 5 lbs. 35c.; per 100 lbs. \$4.00.

Salt (Agricultural). For top dressing lawns or asparagus beds. Apply early in spring, at rate of 800 to 1000 lbs. per acre. 200 lbs. \$1.50; ton \$9.50.

Sheep Manure. Pure, Fresh, Pulverized. One of the richest general fertilizers. Elliott's XX Brand, 2 lbs. 15c.; 4 lbs. 25c.; 10 lbs. 50c.; 25 lbs. \$1.00; 50 lbs. \$1.50; \$2.25 per 100 lbs.; \$32.00 per ton.

Pot Grown Strawberry Plants.

Pot Grown Strawberry Plants

These are grown for us by a specialist, and are the very best varieties and grown plants that can be procured. Persons planting pot grown strawberry plants may secure a full crop of berries the following season, which cannot be had where layer plants are used. Varieties marked (P) have pistillate or imperfect flowers, and must be planted near perfect flowering kinds, in order that the flowers may be fertilized. Plant one row of a staminate variety to every three rows of a pistillate variety.

New Strawberry

"Michell's Pride of the Market"

A cross between *California Seedling* and *Bubach*. The very finest variety yet introduced. **Size**—very large, ripens all over, even to the very nose. **Shape**—Round and very attractive. **Season**—Second early, following immediately after the extra early. **Cropper**—Very prolific. In fact we cannot praise this new variety too high, and can safely recommend it to our customers. Every one should plant about 25 of this famous new sort.

Price, pot grown plants, per doz., \$1.00; 25 for \$1.50; \$2.50 per 50; \$4.00 per 100.

Layer plants ready September 1st—per 100, \$1.50; per 1000, \$9.00.

GENERAL LIST

Brandywine. "The plant is remarkably vigorous, of large size, hardy and healthy. It sends out many strong runners, and produces fruit in abundance. It has a perfect blossom, and its fruit colors all over. Its season is rather late, and every berry comes to maturity. The berries are very large, nearly always of regular, conical form; color bright, glossy red."

Bismarck. One of the finest early sorts.

Bubach. (P.) One of the best varieties we have. In productiveness unsurpassed. Noted for its uniform and large size. The plant is hardy and the leaves endure hot sun, as it is a very robust variety; does not rust. Produces berries of first quality without much care. The berry is meaty, bright red in color. It will pay to plant Bubach for garden use.

Clyde. A good mid-season variety; large, roundish, conical in shape; bright scarlet, good quality.

Cumberland Triumph. One of the very best for home garden. Plants large, vigorous and, under rich culture, productive. The berries are very large, almost round, regular and uniform in size and shape, pale scarlet in color, and of fine quality. Early to mid-season.

Enormous. New, very fine, dark crimson berry. The flesh is highly colored through. Free from rust.

Gandy. One of the best late berries. Plant a good strong, healthy grower; berry large, firm, regular in size and shape, bright in color, handsome and showy; quality good.

Glen Mary. A superb variety of large size and good quality. In color a bright glossy crimson. The plant is strong and healthy, very prolific. Twelve specimen berries fill a quart box. It is especially adapted to the private garden.

Gladstone. An improvement on Sharpless, a very fine berry, very productive.

Marshall. Plant is large and strong; very prolific; 110 berries have been counted on a single plant. The fruit is handsome and attractive; very large; 14 berries have been known to fill a quart box. Perfect form; dark crimson when fully ripe; quality and flavor excellent.

Michell's Early. This is an unusually early berry. The berries are bright scarlet, conical in shape, of excellent quality. It resists frost and drought on account of its strong constitution; is also free from rust. This plant has so much pollen that it is one of the best berries to fertilize all pistillate sorts.

Nick Ohmer. A berry of vigorous and robust habit, bright red, smooth berries borne on strong stems, mid-season, lasting until quite late in season.

Sharpless. For the best results Sharpless requires heavy, rich soil. The plant is exceedingly large and vigorous, quite free from rust and blight. Fruit of good quality; somewhat irregular, oblong, flattened at the top.

William Belt. Berries large, conical, rather long, regular in outline; bright red, glossy; quality good, moderately firm; plants vigorous, healthy and quite prolific. It is of good quality, and will sell well in a fancy market.

Price, per doz., 50 cts.; per 100, \$3.00; \$25.00 per 1000.

P. S.—We strongly recommend using *Michell's Pure Bone Meal* when planting new Strawberry beds.

LAYER PLANTS of the above and all other leading varieties, ready Oct. 1st. Per 100, \$1.00, per 500, \$3.00., \$5.00 per 1000.

HEDGE PLANTS

California Privet—Large Stock. Strong Plants.

Exceedingly beautiful, nearly evergreen hedge plants. Very vigorous and hardy; leaves deep green, bright and very glossy. Especially adapted for hedges at the seashore; very easily transplanted. Beware of spurious kinds of privet which are being offered for the above and which are not nearly so desirable. Ours are the genuine California, or Japan Privet (*Ligustrum Ovalifolium*). Most of them have been transplanted and are furnished with an abundance of fine fibrous roots, are well branched and are sure to give satisfaction.

OSAGE ORANGE

Extra strong two year old plants.

Per 100, \$1.00; \$7.50 per 1000.

Currants

Black Naples. Vigorous and productive; used for jelly and jams and highly profitable for market in some sections. Two years, per doz., \$1.00; \$6.00 per 100.

Fay's Prolific. Color, rich red. Per doz., \$1.50; \$7.50 per 100.

Red Dutch. Medium size; in large bunches; the old and well-known currant of the garden. Per doz., \$1.00; \$6.00 per 100.

Red Cherry. Large. Per doz., \$1.00; \$6.00 per 100.

White Grape. The best white variety; large, sweet and good; best for the table; a good bearer. Per doz., \$1.00; \$6.00 per 100.

Blackberries

Erie. An excellent early berry; ripens its entire crop at once. Berries good size, black, firm, sweet and of good quality. Per doz., 60 cts.; \$3.00 per 100.

Kittatinny. Large, juicy, sweet and excellent; hardy and productive. Considered the best and most profitable late berry. Per doz., 60 cts.; \$3.00 per 100.

Wilson's Jr. Of large size, unsurpassed productiveness, fine flavor and early. The largest and best early blackberry yet introduced. Per doz., 60 cts.; \$3.00 per 100.

Gooseberries

Downing. Large pale green; soft, juicy and good for family use. Two years, per doz., \$1.00; \$6.00 per 100.

Houghton's Seedling. Pale red. Per doz., \$1.00; \$6.00 per 100.

Industry. Although a foreign sort, it has done admirably, being a vigorous grower and an immense yielder, and showing no signs of mildew. We confidently recommend it for the garden, being unequalled for size, flavor, productiveness and vigorous growth. Color, dark red. Each, 20 cts.; \$2.00 per doz.

Raspberries

Brandywine. Large; bright red; hardy and productive; an old variety, extensively grown. Per doz., 50 cts.; \$2.50 per 100.

Cuthbert. Large, firm, deep rich crimson, of excellent quality; perfectly hardy and very productive. Per doz., 50c.; \$2.50 per 100.

Philadelphia. Dark crimson; hardy and productive. Per doz., 75 cts.; \$2.50 per 100.

Golden Queen. The best yellow variety. Per doz., 75 cts.; \$2.50 per 100.

Gregg. A large black variety; fruit firm, of excellent quality and a good shipper. Per doz., 50 cts.; \$2.50 per 100.

Japanese, or Wineberry. Large clusters of red berries, excellent for jellies or preserving. Each, 10 cts.; \$1.00 per doz.

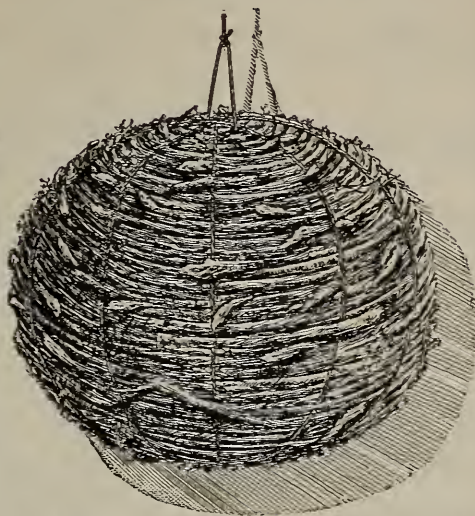

PLANTS, ETC.

NOVELTY: Japanese Fern Balls.

Direct from Japan.

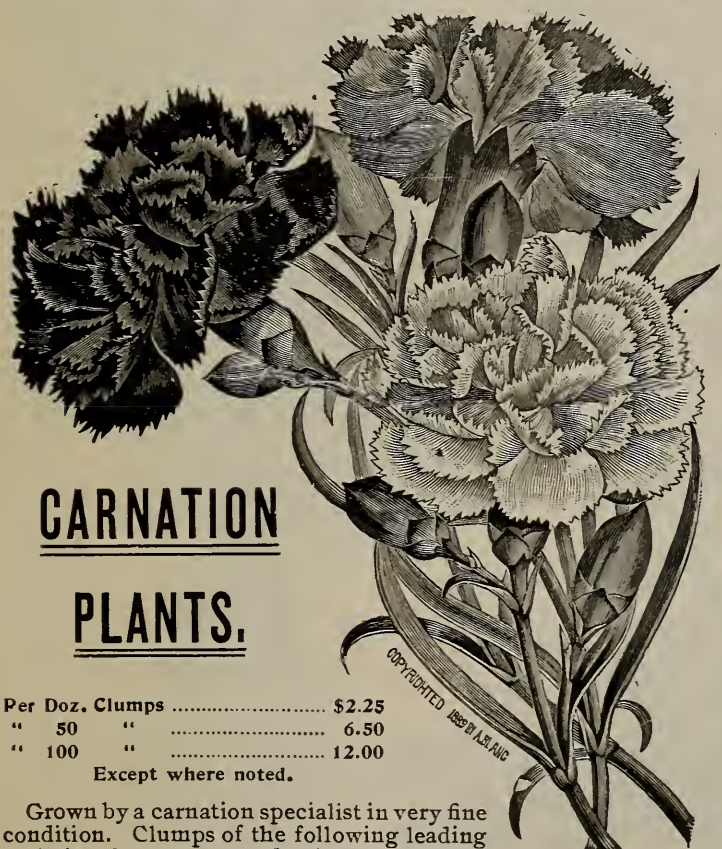

THIS beautiful novelty is an importation from Japan and is certainly the finest addition to the Fernery yet introduced. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory or greenhouse.

Directions for Starting: Place ball in water for fifteen minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before. These Fern Balls usually arrive from Japan about December. Orders, however should be placed at once, as supply is small. Price, in dormant condition, each, 60 cts.; per doz., \$6.00.

Fern Ball before watering (dormant) About 8 ins. in diam.

See back cover page for effect.

CARNATION PLANTS.

Per Doz. Clumps	\$2.25
" 50 "	6.50

Best Variegated Varieties.

Gold Nugget, Eldorado, Mrs. Geo. Bradt.
(Olympia, \$3.00 per doz.; 25 for \$5.00; \$16.00 per 100.)

NEW CARNATION, "Mrs. E. A. Nelson."

Orders booked for delivery Spring, 1902.

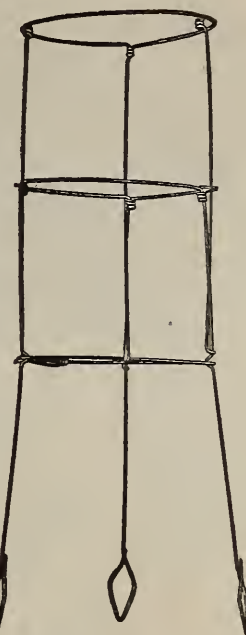

DESCRIPTION BY THE INTRODUCER.—In placing the "Mrs. E. A. Nelson" on the market, I do so thoroughly convinced that, as a commercial variety, it will rank among the very best that were ever introduced. Those who saw it growing at my place, at various seasons, during the past four years, are unanimous in declaring it to be unquestionably the best commercial pink carnation in sight. **SIZE**—The average bloom, under ordinary culture, exceeds three inches in diameter. When disbudded it reaches 3½ and 4 inches. **COLOR**—A pure, glistening pink. **CALYX**—Strong and absolutely nonbursting. **STEM**—2 to 2½ feet, strong and erect. No other carnation surpasses it in this respect. **BLOOMING QUALITIES**—Of the highest order, it is withal an early, profuse and continuous bloomer. **HABIT OF GROWTH**—Strong, clean and vigorous. It lifts easily and suffers no set-back under the most discouraging conditions, which is but another proof of its health and vigor. **KEEPING QUALITIES**—Blooms shipped from Indianapolis to Boston arrived at their destination in splendid condition. This fact is worthy of note because of the distance between the two points, necessitating three transfers. **RECORD**—Scored 94 points in Boston and 91½ in Cincinnati on March 9th.
